

# NorQuest by the numbers

## SIZE

**14,439**

full-time and part-time credit students\*

**8,580**

non-credit or continuing education students,  
including assessment examinations\*

**18,033**

individual learners served by  
NorQuest College

**1,721**

graduates from  
credit programs

**9,998**

Full-Load Equivalents  
(FLE)\*\*

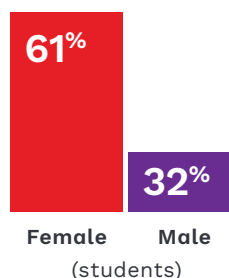

## STUDENT DIVERSITY

**30%**

from outside greater  
Edmonton area

**70%**

from greater  
Edmonton area

**3,344**

international  
learners

**84**

countries of birth

**77**

first languages spoken  
on campus

**29**

average age  
of credit  
students

**56%**  
age 25  
and over

**44%**  
age 24  
and under

**1,239**

credit students self-identified as Indigenous  
(First Nations, Métis or Inuit ancestry)\*\*\*

**1216**

students used  
accessibility services

\* Some of our learners engage in credit and non-credit programming, and are included in both learner totals.

\*\* FLE is a measure used to make comparable calculations across different institutions and programs. It is measured by taking the load of the student enrolled (instructional hours + practicum hours) and dividing by the full load of that program. This results in a comparable metric to be able to use across the system.

\*\*\* This total is an under-representation of NorQuest College credit students of Indigenous descent as it only reflects those who self-identified as Indigenous at the time of application.
